一篇用于检验舒适阅读效果的模拟论文
A synthetic paper for comfortable reading

PaperPair 排版测试文档：数据为虚构，不包含科学结论。
PaperPair layout fixture - invented data, no scientific claims

摘要
Abstract

本模拟文档用于测试双语阅读、图片保留和公式显示。
This synthetic document tests bilingual reading, preserved figures, and equations.

文字与示意图经过简化。
Its text and diagrams are deliberately simple.

译文由人工提供。
Translations are supplied manually.

这些测试内容不能被当作真实研究，也不能称作模型生成的译文。
The test data must never be presented as a real study or as model-generated translation.

1. 左栏
1. Left column

LEFT-1：阅读应当自然流畅。
LEFT-1: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

LEFT-2：阅读应当自然流畅。
LEFT-2: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

LEFT-3：阅读应当自然流畅。
LEFT-3: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

2. 右栏
2. Right column

RIGHT-1：阅读应当自然流畅。
RIGHT-1: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

RIGHT-2：阅读应当自然流畅。
RIGHT-2: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

RIGHT-3：阅读应当自然流畅。
RIGHT-3: Reading should feel natural.

每段原文始终显示在对应译文下方，小符号也完整保留。
Each source paragraph stays visible below its translation, including small symbols.

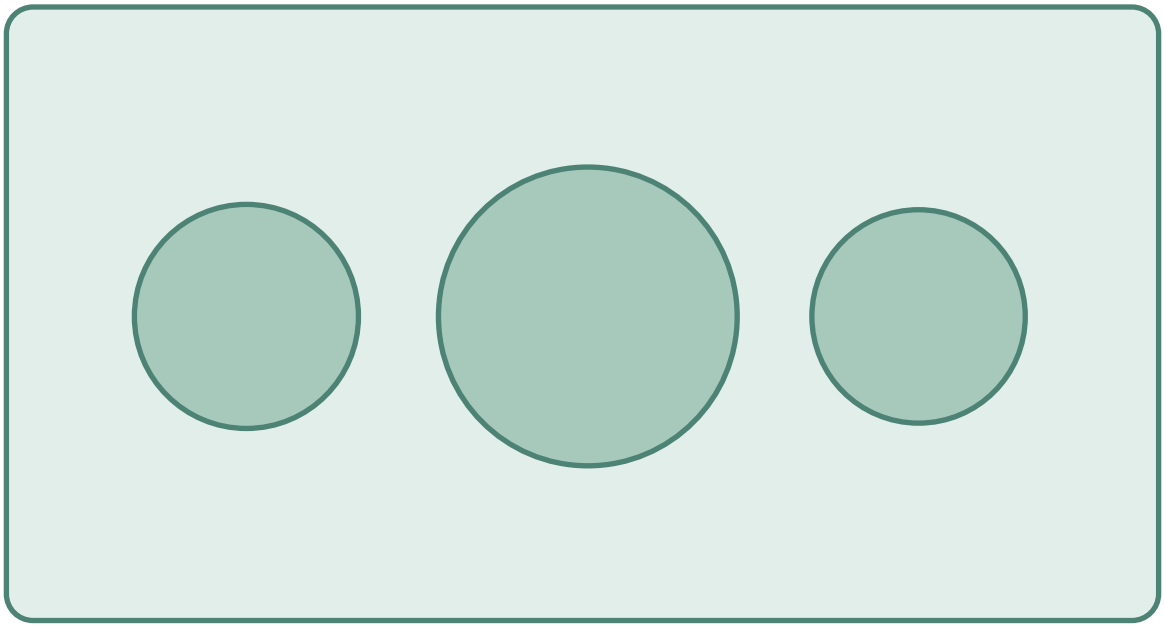

图 1. 模拟细胞示意图，保留原始矢量图形。
Figure 1. Synthetic cells, preserved as vectors.

$$E = mc^2$$

公式 1. 这里采用一个熟悉的公式，仅用于检查数学内容的显示效果。
Equation 1. A familiar equation used only to check that mathematical rendering survives.

SYNTHETIC TEST FIXTURE
